## School Referenda: Historical Results

The results of tax referenda have been collected by IASA in an unofficial capacity since 1988. These results are reported by six fund categories - capital improvement tax, education, operations and maintenance, health/life safety, tax extension limitations, and transportation - and by four bond categories - building, computer technology, repairs, and working cash. The results below, listed by election, show the overall passage rate versus failure rate for the total number of questions on the ballot.
